- **Sri Chaitanya Hight School**   2018
  Board of Secondary Education,AP
  9.7 GPA

Skills

- Programming Languages:Python,C,Basics of Java
- Front End:HTML,CSS,Java Script

Projects

- **The Number Guessing Game**
  - I have completed my project in Oasis Infobyte.
  - The number guessing game is the game in which the random number given by the system should be guessed by the player within the limited number of attempts.
  - I have limited the number of chances to five, If the player guesses the number in the 1st trail she scores 50points, If she guesses the number in 2nd trail she scores 40points and so on......If she didn't guess the number in any of the trails she can replay the game that means she scores 0points.
  - I have developed this project in Java.

- **ATM Interface**
  - I have completed my project in Oasis Infobyte.
  - We have all come across ATM's in our cities and it is built on java, this complex project consists of five different classes and is a console-based application.
  - When the system starts the user is prompted with the user id and user pin.On entering the details successfully,the ATM functionalities are unlocked.
  - The project allows to perform the following operations: Transactions History, Withdraw, Deposit, Transfer,Quit.

Languages

- English
- Telugu

Internships

- **AWS Cloud Virtual Internship.**
  - • I have completed this internship in APSCHE platform.
    - •A cloud virtual machine is the digital version of a physical computer that can run in a cloud.
    - •Like a physical machine, it can run an operating system, store data, connect to networks, and do all the other computing functions.

Strengths

-
  - •Time Management
  - •Communication
  - •Adaptability
